## Assess Your Business's Readiness for CBAM Compliance

The BCC's CBAM Health Check Tool is a free, interactive resource designed to help UK businesses evaluate their preparedness for CBAM compliance under the EU's Definitive Regime.

If your business exports to the EU, understanding your carbon emissions reporting obligations is essential for maintaining trade relationships.

## How the CBAM Health Check Works

Answer a few quick questions – The tool takes 5 minutes to complete.

Receive a personalised readiness report.

Your results are displayed using a traffic light system to highlight:

- Urgent areas requiring action
- Areas needing improvement
- Compliance areas already in place

If further support is needed, businesses can book a free session with a CBAM expert.

## Why Use the CBAM Health Check Tool?

- Fast & free – Quickly assess your CBAM readiness at no cost.
- Actionable insights – Identify areas that require immediate attention.
- Specialist support – access BCC's CBAM Consultancy Service for further guidance.

## What the Health Check Assesses

- Your supply chain & market exposure – Do your goods reach the EU?
- Product classification – Are your products within CBAM scope?
- Your carbon emissions knowledge – Are you tracking direct and indirect emissions?
- Customer expectations – Have your buyers requested emissions data?

Take the CBAM Health Check today!
